PRODUCT PROFILE

GREEN HMP

Hot Melt Purge

Description

GREEN HMP is a low viscosity cleaning fluid for use in all hose fed hot melt application equipment.

GREEN HMP dissolves all hot melt adhesives by reducing the viscosity and loosening decomposed charred material.

GREEN HMP is available in 5L bulk containers.

Benefits

Fast Breakdown

GREEN HMP will quickly breakdown hot melt residues within hoses and tanks which will prevent applicator wheels from binding, erratic pump stroking and hose constrictions.

Reduces Hot Melt Usage

GREEN HMP eliminates unnecessary purging of large quantities of hot melt.

Safe to Use

GREEN HMP is a mineral oil free hot melt purging liquid developed for use within the food packaging industries.

Easy to Use

Apply **GREEN HMP** direct into the melt tank and circulate through the system at 140°C-170°C (284°F-338°F).
Easy to follow instructions on every pack.
